

2100 SERIES
Industrial Workstation Lighting
T8 Glass Tube LED

We are pleased to announce the capability of economically upgrading our 2100 series workstation lights to Direct Drive T8 Glass Tube LED (GTL) technology.

There will be no change to the fixtures outward appearance.

Benefits of T8 GTL

- * Up to 45% Less energy required to illuminate
- * Lamp life is 50,000 hours or nearly 16 years, based on 12 hours/day, 5 days a week.
- * Direct Drive means no ballast or LED driver required.
- * The Glass Tubes are also multi voltage, which means they will work anywhere in the world with the appropriate cord.

Standard Product Specifications: 2 or 4 Lamp

- * 20 gauge steel construction with powder coat finish
 (Standard colors: Neutralite, Black, Gloss White, and Steel Grey (light grey))
- * 9 ft. Black Cord Set with Straight Plug (Right rear cord exit)
- * 24 gauge white powder coated reflector
- * Pattern 12 acrylic prismatic lens, softens distributed light on to work surface.
- * **Five year warranty on the fixture**

Available Options and Accessories

- * Non Dimming (4 lamps)
- * 90 degree SW rotation plug
- * 11" Nylon Cable Ties
- * Adhesive cord clips
- * Offshore Upgrade
- * Universal Mounting Kit
