

## 1300 Series Display Lighting

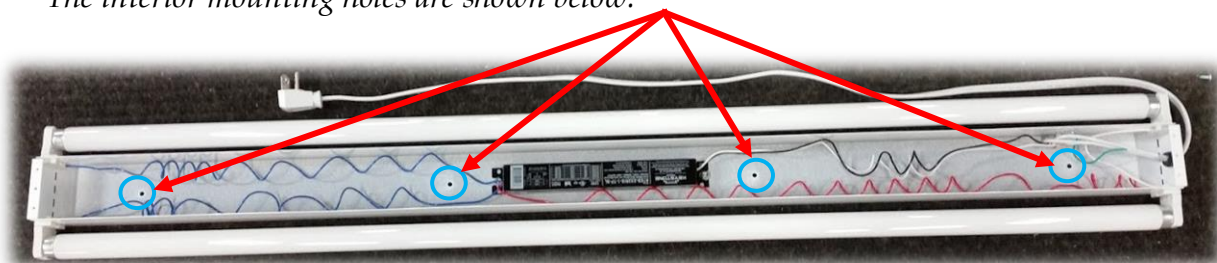

Our 1300 Series lighting was actually our very first light designed exclusively for point of purchase displays.

The cover for these is flush with the end of the light, and needs to be removed for mounting these onto a large flat surface.

The interior mounting holes are shown below.

### **Standard Product Specifications**

- \* 22 gauge steel construction
- \* Gloss white powder coat finish on the housing eliminates the need for a reflector
- \* White (flat) Cord Set with Straight Plug (Various lengths available)
