

**2000 Series
Energy Saving LED**

Economy Industrial Work Station Lighting

Our 2000 series work station light was recently re-designed to exclusively use the Direct Drive Glass Tube LED. Since there is no need for a ballast compartment we were able to design this narrower fixture.

Benefits of T8 GTL

- * Up to 45% Less energy required to illuminate
- * Lamp life is 50,000 hours or nearly 16 years, based on 12 hours/day, 5 days a week.
- * Direct Drive means no ballast or LED driver required.
- * The 24", 36", and 48" GTLs are shatter-proof, this eliminates lamp breakage during shipment.
- * **Five year warranty on fixture**

Standard Product Specifications

- * 20 gauge steel construction.
- * T8 Glass Tube LEDs 4000K (Multi Voltage 120 - 277) Available with 2 or 3 lamps
- * 9 ft Black Cord Set with Straight Plug (Right rear cord exit)
- * On Off Rocker Switch
- * Gloss White Powder coat finish eliminates the need for a reflector.

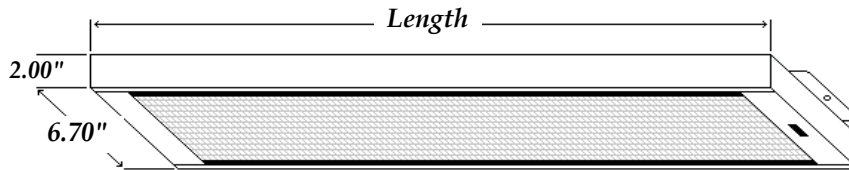

Additional colors available: Black, and Light Grey. (Reflector required)

- * Pattern 12 Acrylic Prismatic Lens, softens distributed light on to work surface.

Product Information

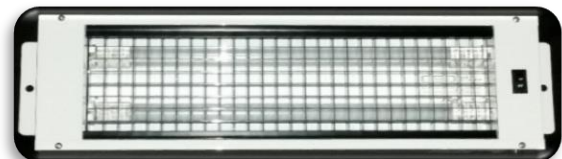

<u>2 Lamp</u>	<u>3 Lamp</u>	<u>Fixture</u>	<u>Lamp</u>	<u>Lamp</u>
<u>Model</u>	<u>Model</u>			
20242	20243	24.12"	18"	7 watt
20302	20303	30.12"	24"	9 watt
20422	20423	42.12"	36"	12 watt
20542	20543	54.12"	48"	18 watt

Available Options and Accessories

- * Cord Exit and Switch Left
- * 90 degree South West rotation plug
- * Adhesive cord management clips (Black or White)
- * 3000, 5000 & 6500 K color temperature available
- * 11" Nylon Cable Ties
- * Offshore Upgrade
- * Silver Parabolic Lens (Egg Crate)

Distributes light downward on to the work surface, and helps eliminate glare.

These lights conform to the National Electrical Code, are UL listed, and CSA certified.
